\$14,000,000 to \$16,000,000

Public Works

415-291-3377

Plan Issuer: Water Emergency Transportation Authority (WETA)

Prebid Conf: MAND 2/23 at 10 AM (meet at 1340 Marina Way South, Richmond)

Div 1-3, 5, 7-10, 12, 14, 24, 26-28, 31-33 & 35. This Request for Proposals ("RFP") is for Bridged design-build of the Ferry Terminal, site improvements and the off-site improvements required as further described elsewhere in this Request for Proposals. The Work consists of furnishing Design Documents, Construction Documents, Permits, materials, labor, tools, plants, supplies, equipment, transportation and superintendents necessary for the construction of the Project as defined by the Preliminary Design Drawings and Technical Specifications ("Bridging Documents") as well as reference materials.

The Project includes dredging (as an option item) and in-water construction, structures, shoreline protection, ground improvements and Site grading. It includes the extension and relocation of utilities and the construction of street, park and parking lot improvements. More specifically, the scope and extent of the improvements that are required as part of the Project are described in the Bridging Documents which are provided in conjunction with this RFP and are an integral part thereof.

All questions prior to award of the Contract shall be directed to Chad Mason by email at: mason@watertransit.org. The deadline for submissions of questions and clarifications concerning the Contract Documents is March 10, 2017.

MISSION BAY BLOCK 3E - STEEL PILES & STONE COLUMNS (ONLINE)

Addenda: 1

3/22/17 2:00 PM 17-00477 SAN FRANCISCO

Mixed-Use

Plan Issuer: Nibbi Brothers

415-863-1820

415-241-2951

Prebid Conf: 3/8 at 10:30AM (meet at 1000 Brannan St., Suite 102, San Francisco)

Nibbi Brothers has been selected as the General Contractor for the Mission Bay Block 3E project in San Francisco. They are in receipt of the 100% DD Set and are currently requesting bids from qualified Subcontractors including those certified with the Office of Community Investment and Infrastructure (OCII) for Steel Piles & Stone Columns.

New construction of 101 affordable housing units in San Francisco with a total of 123,701 gross sq. ft. The 4-story type V over 1-story type I housing project is to provide a safe and healthy home to support spaces for families and veterans. The building is organized into three wings surrounding a large landscaped multi-use courtyard. The Project will also include a main lobby, activity rooms, administrative offices, storage, bike parking and an on-grade parking garage with 25 spaces.

RFP FOR NEW FIRE BOAT STATION 35 DESIGN-BUILD SERVICES (ONLINE)

Addenda: 5

3/22/17 2:00 PM 17-00275 SAN FRANCISCO

\$29,900,000

RFP / RFQ / SOQ

Plan Issuer: City & Co of San Francisco

415-554-6229

Visit 3/9 at 10 AM (Site Visit)

Prebid Conf: 2/9 at 1:30PM & 2/15 at 10AM (meet at 30 Van Ness Ave., Suite 3900, San Francisco)

The City and County of San Francisco ("City"), acting by and through San Francisco Public Works ("Public Works"), seeks to retain the services of a pre-qualified design build entity to provide design-build services for Fire Boat Station 35 at the Port of San Francisco Piers 22.5 and 24 ("Fire Boat Station 35 Project" or "Project"). Design Build services will include, but are not limited to, planning, design, engineering, labor, materials procurement, delivery, installation, and commissioning-related services to replace the existing facility at Piers 22.5 and 24 with a single pier and new fire boat station.

The City pre-qualified the following design-build firms through a Request for Qualifications ("RFQ") process. Only these five (5) firms, appearing in alphabetical order, are eligible to submit Proposals in response to this RFP.

- C. Overaa and Co./Dutra, J.V.
- Nibbi Brothers Associates, Inc.
- Plant Construction Co. and TEF Design / Kuth Ranieri, J.V.
- Swinerton / Power, J.V.
- Turner / Pfau Long, J.V.

GOLDEN GATE PARK CAROUSEL KIOSK IMPROVEMENT PROJECT (ONLINE)

Addenda: 0

3/22/17	2:30 PM	17-00518	SAN FRANCISCO	\$80,000	Public Works
----------------	----------------	----------	---------------	----------	---------------------

Plan Issuer: City & Co, Parks & Recreation

415-581-2541

Prebid Conf: 3/8 at 10 AM

Remove all exterior stucco on the carousel kiosk building, repair wood rot damage, and install new stucco around the exterior of the building. Work shall be conducted inside Golden Gate Park, located in San Francisco, CA.

SCOPE OF WORK

A. Install temporary chain link fencing around the entire perimeter of the kiosk before beginning work and remove only after all work is completed. Access into the kiosk shall be provided for the vendor as needed during the day and locked at night.

B. Contractor shall provide a Health and Safety Plan for engineer's review.

C. Contractor is to use extreme caution while driving vehicles inside the park, especially around children's playground and carousel.

Maximum speed on all roads and paths shall be 5 MPH.

D. If the contractor must drive over a lawn, plywood is to be placed over the grass in the path of travel.

E. Contractor's storage area shall be located inside the parking lot adjacent to the San Francisco Lawn Bowling Clubhouse (See Attachment 1, Figure 8.). Area shall be enclosed with temporary fencing and shall be locked after hours. Contractor supplied storage boxes may be used for secure storage of tools and equipment.

NEW RADIO SYSTEM UPGRADES FOR THE SHERIFF DEPARTMENT

Addenda: 0

3/23/17 2:00 PM 17-00642 Hollister **Public Works**
 831-636-4170 831-636-4176

Plan Issuer: County of San Benito

This project will upgrade and relocate components of the existing emergency communication radio infrastructure. Existing equipment is located at 451 Fourth Street and the new location is in a purpose-built enclosure at 2301 Technology Parkway. The existing radio base station equipment is current, digital-capable technology, which will be reused. The current base stations are Kenwood NexEdge NXR-700 radios. New antennas, cabling and related hardware will be required. A single 25-foot antenna mast will be mounted to the west side of the building located at 2301 Technology Parkway, with all of the required antennas mounted to the single mast. Cabling for the antennas will be run into the building and into the radio closet at Technology Parkway using weatherproof hardware. A data connection will be made from 471 Fourth Street where the backup PSAP is located, to the radio closet at 2301 Technology Parkway, using the County-owned fiber optic cable.

Plan Issuer: Cal Poly Facilities Planning & Capital Projects 805-756-1299 805-756-7566

Prebid Conf: 3/13 10 am @ Cal Poly, Building 70, Room 110

ELECTRONIC RESPONSES THROUGH PUBLIC PURCHASE ONLY. COMPLETION OF VENDOR REGISTRATION PROCESS CAN TAKE 24 HOURS.

The State of California acting through the Board of Trustees of the California State University are seeking proposals from pre-qualified construction managers to provide construction management services with a guaranteed maximum price. The delivery method for this Project is "Construction Manager at Risk" (CMAR).

Proposers must be prequalified with the Trustees, and shall register and log in to "PlanetBids" to apply for prequalification at http://www.calstate.edu/cpdc/cm/contractor_prequal_bidders.shtml. Applications must be submitted online no less than ten business days prior to RFP submittal due date. Proposers may contact the Trustees' Prequalification Coordinator below with any questions.

All questions regarding this RFP must be submitted electronically through the University's Public Purchase website at https://afd.calpoly.edu/cprm/vendor_info/bids_in_process. All questions must be received no later than the due date indicated in the Project Schedule, Section 4.01. Questions received after the due date will not be considered. All questions will receive a response within 5 business days and posted on the University's website.

MISSION COURT - 90 UNIT SENIOR HOUSING (ONLINE)

HIGHWAY 1 GATEWAY MONUMENTS PROJECT

Addenda: 0

3/29/17 2:00 PM 17-00558 San Luis Obispo County

Public Works

Plan Issuer: ASAP Reprographics

805-772-6921

The work includes the construction of three community gateway monument signs along or adjacent to State Route 1 (SR 1), one each near the southbound entry to San Luis Obispo, the southbound entry to Cambria, and the northbound entry to San Simeon. The work for the Cambria Sign is subject to award of a Bid Alternate.

At each location, the sign itself is the majority of the project. The following may be considered ancillary components:

- San Luis Obispo: irrigation, lighting, and a sidewalk and trees on the Ferrini Rd. frontage
- Cambria: no additional features; immediate area around sign will be re-seeded with Caltrans-approved hydroseed mix as necessary.
- San Simeon: no ancillary components

 Plan Issuer: SFIA 650-821-7735

Prebid Conf: 3/10 at 10AM (Airport Commission Bldg, Room B)

An As-Needed Construction Services with Master As-Needed Agreement is an indefinite quantity contract pursuant to San Francisco Administrative Code Section 6.64, As-Needed Construction Contracts. San Francisco Airport plans to accomplish a series of construction projects with a single as-needed construction contract with master as-needed agreement awarded before the projects are identified. Airport will solicit quotes from contractors with master as-needed agreement through a Contract Service Order (CSO).

RFP FOR PROFESSIONAL DESIGN SERVICES SEASIDE BRANCH LIBRARY - ADA IMPROVEMENTS Addenda: 0

4/3/17 5:00 PM 17-00540 Seaside

Public Works

Plan Issuer: City of Seaside sottmar@ci.seaside.ca.us

831-899-6825

831-899-6211

The City of Seaside is soliciting proposals from qualified firms to design improvements to remove access barriers in conformance to American's with Disability Act requirements at the Seaside Branch Library herein referred to as "the Project." Funding for the design and construction comes from the Community Development Block Grant program administered by Housing and Urban Development under the Federal Housing Administration. The selected consultant must be familiar with preparing construction bid documents utilizing federal funds. The selected consultant shall perform the tasks specified in the "Scope of Work" section of the Request for Proposal. The consultant is encouraged to suggest additions or modifications to the scope that will enhance or clarify the Project and the suggestions should be incorporated into the proposal. Fax proposals will not be accepted.

carlos.marques@sjeccd.edu						
Prebid Conf: MAND 2/7 at 10AM						
Prep existing floor by removing existing muslin "ground cloth". Remove all staples from the wood holding ground cloth to the stage floor, the floor will need to be patched after removing old scenic show items installed into the floor. Full sanding of the existing wood floor planks and patches to provide a smooth surface before the hardboard is installed. Install approximately 120 sheet of 1/4" tempered both sides hardboard countersunk screwed to the existing stage floor. Precise cuts around floor pockets, trap floor platforms, and other items at edges will be required. The hard board at the wings on either side downstage of the proscenium will require to be glued to the existing concrete floor for a smooth transition from side stage wing to stage floor and orchestra lift. Replace both existing fire doors at proscenium wall with new thresholds so doors can clear new floor surface. The new floor will be painted with two coats of theatrical floor paint.

Commercial

Plan Issuer: Nibbi Brothers Construction

415-863-1820

415-241-2951

Nibbi Brothers has been selected as the General Contractor for the Mission Bay Block 3E project in San Francisco.

New construction of 101 affordable housing units in San Francisco with a total of 123,701 gross sq. ft. The 4-story type V over 1-story type I housing project is to provide a safe and healthy home to support spaces for families and veterans. The building is organized into three wings surrounding a large landscaped multi-use courtyard. The Project will also include a main lobby, activity rooms, administrative offices, storage, bike parking and an on-grade parking garage with 25 spaces. The building design will incorporate sustainable building strategies to achieve the equivalent of Green Point certification.

	<u>MILL VALLEY - SAUSALITO MULTI-USE PATHWAY RESURFACING PROJECT (E. BLITHEDALE AVE TO VASCO CT) - ONLINE</u>					Addenda: 0
		4/6/17 2:30 PM	17-00572	MILL VALLEY AND SAUSALITO	\$210,000	Public Works
Plan Issuer: County of Marin, DPW				415-473-7877		

This Project consists of widening the existing multi-use pathway from approximately 8 feet wide to 10 feet wide, including 2 foot wide shoulders on each side. Construction methods include pulverizing the existing pathway, incorporating cement, placing and compacting to create base material. An asphalt concrete overlay will be placed on top of the cured material and 2 foot shoulders on each side will be placed with quarry fine material. Shoulder backing with the same material will be necessary. The project limits are along the Mill Valley – Sausalito Multi-Use Pathway corridor between East Blithedale Avenue and Vasco Court, approximately 3,500 feet long. Cross slopes will be required to meet ADA requirements.

SMART THERMOSTATS AND ENERGY MANAGEMENT SYSTEM

Addenda: 0

4/6/17 3:00 PM 17-00570 Salinas

School

Plan Issuer: Santa Rita Union School District

831-443-7207

Santa Rita Unified School District is seeking submission of proposals from interested firms that are capable of, among other things, providing thermostats that are capable of web-based monitoring, central control, and can supply lifetime license for use of a web-based user interface. This will enable the District to more efficiently manage the usage of its HVAC systems, leading to significant energy and operating costs.

In addition, the system should be operable during any outage event – in conjunction with the District’s solar + storage energy back-up system. While in “battery-backup mode” the District will utilize the Energy Management System to curtail HVAC energy consumption by adjusting the thermostat settings from the web-portal.

25TH AVENUE GRADE SEPARATION PROJECT - SAMTRANS

Addenda: 15

SC44E **4/7/17 2:00 PM 16-03103 San Mateo**

\$95,000,000

Public Works

Plan Issuer: Samtrans, Contracts

650-508-6498

Prebid Conf: 1/4 & 1/9 at 9AM (1250 San Carlos Avenue) (Non-Mandatory)

Construction of approximately one (1) mile of new railroad grade-separation by partially raising the rails in a lightweight–cellular-concrete (LCC) filled MSE wall, partially depressing the existing road at 25th Avenue, and constructing two (2) new road connections at 28th and 31st Avenues. The grade crossings require the installation of two (2) new concrete precast bridges and one (1) steel bridge. The bridges shall be supported by CIDH and cast in place abutments and center columns. In addition, the Project will construct a new elevated, center-board Caltrain station with access from 28th avenue, as well as from a two-cell cast-in-place pedestrian viaduct. The Project will also include grading and drainage improvement, changes to existing traffic lights, additional street and platform lighting, relocation of existing rail signals, and custom made shelters and other amenities at the station.

Div 1-3, 5-9, 13, 23, 26 & 28. This public works Project consists of, in general, removing and replacing the existing exterior wall mounted HVAC units from the Golden Gate Bridge Toll Plaza Modular Offices, removing and replacing the existing roofing system and the existing roof top mounted HVAC units from the Golden Gate Bridge Toll Plaza Administration and Powerhouse buildings, and performing HVAC, commercial remodeling work, and other improvements at the Toll Plaza Administration Building and Modular Offices, located at Golden Gate Bridge Toll Plaza, San Francisco, CA.

The Work at the Toll Plaza Modular Offices includes: removing and disposing five (5) exterior wall mounted HVAC units and existing plywood siding, existing exterior access stairs, landings, and ramps; furnishing and installing new siding, five (5) new wall mounted HVAC units, new access stairs, landings, and ramps, new aluminum gutters, interior office modifications, miscellaneous electrical modifications, painting, asphalt concrete work, concrete flatwork, and all other work items as shown on the Contract Plans and as specified in the Bid Documents.

The Work at the Toll Plaza Administration and Powerhouse buildings includes: removing and disposing the existing tar and gravel roofing system and miscellaneous facilities, six (6) roof top mounted HVAC units, a return air fan, three fan coil units, various HVAC terminal units, HVAC ductwork, a hot water heating boiler system, an exterior wall mounted access ladder, and other miscellaneous facilities; furnishing and installing a new built-up roofing system, six new roof top HVAC units and their control system, a return air fan variable frequency drive, a warm-air heater and its vent system, two (2) mini-split air conditioners, duct work modifications and terminal units, an HVAC fire alarm panel, three (3) new dehumidifiers, utility support systems, miscellaneous electrical modifications, an exterior wall mounted access ladder, painting, and all other work items as shown on the Contract Plans and as specified in the Bid Documents to complete the Project titled Toll Plaza Modular Offices and Administration Building Improvements.

Questions regarding technical information and clarifications regarding this Contract shall be submitted in writing only. Such submissions shall reference Contract No. 2017-B-12 in the subject line and shall be sent by email to: bidquestions@goldengate.org no later than eight (8) calendar days before bid opening.

(This Project is a REBID. Previously scheduled bid date was 12/6/16)

COUNTRY CLUB, SCHAPIRO, & BERRYMAN NORTH PUMPING PLANTS REHABILITATION AND ROAD 24 NO. 1 PUMPING PLANT DEMOLITION - EBMUD Addenda: 0

4/12/17 1:30 PM 17-00569 ALAMEDA COUNTY AND CONTRA COSTA COUNTY \$6,000,000 to \$8,000,000 **Public Works**

Plan Issuer: EBMUD-East Bay Municipal Utilities District 510-287-1040

Prebid Conf: 3/22 at 9AM (meet at 4501 Oak Hill Road, Oakland)

WORK INCLUDES THREE SITES:

1) Rehabilitating the Country Club Pumping Plant site in Oakland: Furnishing and installing three (3) 100 HP vertical turbine pumps and motors, construction of site improvements, and performing related work as shown on drawings as specified; located on District property at 4501 Oak Hill Road in Alameda County, California, as shown on drawing 621-Z-001.1.

2) Rehabilitating the Schapiro and Road 24 No. 1 Pumping Plants site in San Pablo: Modifying existing Schapiro Pumping Plant including rerouting of suction and discharge piping and addition of flexible pipeline connections; installing a surge relief valve, variable frequency drives, underground portable pump connections, and new indoor and outdoor electrical gear; modifying existing building; constructing associated site improvements; demolishing all mechanical and electrical equipment associated with Road 24 No. 1 Pumping Plant; and performing related work as shown on drawings and specified; located on District property at 4801 Amador Street in Contra Costa County, California, as shown on drawing 657-Z-002.1.

3) Rehabilitating the Berryman North Pumping Plant site in El Cerrito: Furnishing and installing one (1) 125 HP vertical turbine pump and motor and performing related work as shown on drawings and specified; located on District property at 7130 Blake Street in Contra Costa County, California, as shown on drawing 667-Z-001.1

MOKELUMNE AQUEDUCT NO. 1 TEMPERATURE ANCHOR UPGRADE AT STATION 2505+50 - EBMUD Addenda: 0

4/12/17 1:30 PM 17-00003 SAN JOAQUIN COUNTY \$900,000 to \$1,200,000 **Public**

Plan Issuer: EBMUD--East Bay Municipal Utilities Dist 510-287-1040

Prebid Conf: 3/21 at 10 AM

Work includes constructing a new pile supported reinforced concrete temperature anchor by either precast prestressed concrete piles method or cast-in-steel shell concrete piles method; demolishing the existing temperature anchor; constructing three new supports and modifying two existing supports; and performing related work at Anchor 2505+50 on Woodward Island in San Joaquin County.

A hard copy of the plans and specifications is available at some Builders Exchanges. Please call your local Exchange to inquire.

Plan Issuer: Port of Redwood City 650-306-4105 000-000-0000

Prebid Conf: MAND 3/22 at 10AM (Port Admin Building)

Wharf 3 scope of work includes construction of nine large diameter steel monopole supported breasting dolphins. Seven of these dolphins are located within the footprint of the existing Wharf. To construct these dolphins, a portion of the concrete deck must first be removed, dolphin constructed, and then a new deck installed. Two of the dolphins are located adjacent to the Wharf. As the existing fender system will be rendered obsolete, it will be demolished.

This project will upgrade the Davenport County Sanitation District's wastewater treatment plant by dredging accumulated solids in the treatment lagoon, installing alarms for the filtration and disinfection processes, and adding redundancy for coagulant and hypochlorite dosing. The project also consists of the construction of a storage pond for treated water, which will allow adjacent farmers to use recycled water for irrigation. The work contemplated consists of:

1. Work within an existing wastewater treatment plant including:
 - a) Dredging an existing aerated lagoon to remove accumulated solids, dewatering, and disposal of the solids,
 - b) Installing system controls, pumps, equipment, and alarms,
 - c) Installing recycled water pumping, metering, and a truck fill station, and
 - d) Related electrical and instrumentation and controls work.
2. Construction of a new recycled water storage pond with associate piping and controls.
3. Installation of approximately 3,000 feet of 4-inch diameter recycled water distribution piping. A bore-and-jack crossing of Highway 1 and the adjacent railroad tracks is an additive alternate.

NEW [PARKING GARAGE STAIR ANTI-SLIP TREAD COVERS AT UC HASTINGS COLLEGE OF LAW GARAGE \(ONLINE\)](#) **Addenda: 1**

4/14/17 4:00 PM 17-00630 SAN FRANCISCO **RFP / RFQ / SOQ**

Plan Issuer: UC Hastings College Of Law 415-565-4717

Prebid Conf: 3/22 at 2PM (meet at 200 McAllister St., San Francisco)

Provide all necessary labor, materials and supplies to install 52 stair tread covers at the UC Hastings Parking Garage, located at 376 Larkin Street, San Francisco, CA 94102. There are two stairways included in this scope: Stairway 1 on the Golden Gate Avenue side of the Parking Garage (21 stair tread covers to provide and install), and Stairway 2 on the Larkin Street side of the Garage (31 stair tread covers to provide and install). The current stair nosings are worn out and separating from the steps in many areas. Please see photos in Attachment 1 for current condition of stair nosings. UC Hastings wishes to improve the safety of the damaged stairways by permanently covering the stairs with stair tread covers, as specified in Attachment 2. The vendor will be required to do the following:

1. Complete all prep work needed to avoid damage to the surroundings.
2. Install stair tread covers as per the Specifications in Attachment 2.
3. All work must be scheduled with the approval of UCH and must be done in such a manner as to avoid disruption to the normal operations of the school to the greatest extent possible.
4. Protect the environment from dust due to grinding during the work.
5. Complete localized repairs to any areas damaged during removal.
6. Jobsite cleanup.

Questions must be in writing and sent to: purchasing@uchastings.edu before 4 PM Mar 29th.

Capitol Connection Q&A for Contractors

Week of 3/20/17

By Shauna Krause of Capitol Services, Inc.

Yes, no and sometimes a maybe. Answering questions about the complex law and interpretations of it in the real world is why it's often hard for contractors to know what's what; yes, no or maybe! Getting it wrong can be costly, and why we always welcome your questions...

Q: We are replacing our Qualifying Individual in Nevada. He only qualifies the Business portion of the license. Does he still need to get the four references completed?

A: No, only Trade Qualifiers are required to obtain references and complete a resume.

Q: We are a non-profit organization that builds dirt trails. Are we required to have a Contractor's License and is the process any different for nonprofits? Would a "C-27" (Landscaping) license work for this?

A: Yes, you are required to have a Contractor's License to build dirt trails. The most appropriate license would be either the "A" (General Engineering) classification, or the "C-12" (Earthwork and Paving) classification. The "C-27" classification *would not* cover you for the engineering involved in building the trails.

Q: I completed an application in mid-July of last year and then we got busy and I never did anything with it. I still have it with original signatures. Can I submit this with dates from last year or will I need to get a new Certification page and everything? I noticed the CSLB released new applications late last year.

A: Maybe, before deadlines. You may want to update the dates on the application, but the CSLB will currently still accept the old forms. However, effective May 1, 2017, the CSLB will no longer accept older forms. All applications submitted after May 1st are required to have a revision date of October 2016 (or later) reflected in the bottom left corner.

Also, the sooner you get it submitted the better, because effective July 1, 2017, the CSLB's fees are going to increase. For example, the current license/application fee will be increased from \$480 to \$530.

Q: I have a "C-10" (Electrical) Contractor who wants to work with my corporation. He wants to still work with his licensed Sole Proprietorship while he works with me as a Responsible Managing Officer (RMO). Is this possible? How can we structure it so he can Qualify my corporation for a "C-10" license while he still has an Active Sole Proprietor?

A: Yes." The "C-10" Contractor would be required to have at least 20% ownership in your corporation in order for your scenario to work out. Also recommend checking with a tax and legal advisor in this choice.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. Research past columns at www.cutredtape.com.

Tailgate Topic

Gas Cylinders-Do's and Don'ts

Oxygen, Acetylene, Argon, Air, LPG, Nitrogen, and other gasses are found in metal cylinders on most every construction site. These portable containers, used for transporting and storing compressed gasses, can cause serious injuries. If used incorrectly, gas cylinders can cause an explosion, fire, or other hazardous situation. Handle them with care and follow appropriate safety rules. Let's review some of the safety do's and don'ts for using compressed gas.

Do's

1. You must always keep cylinders in a secure and upright position.
2. Keep the protective valve cap in place when a cylinder is not in use.
3. Mark the cylinder 'Empty' or 'MT' when the gas has been used.
4. Keep oil and grease away from oxygen cylinders (oil and oxygen can ignite spontaneously).
5. Open valves slowly, using the valve wheel or T-handle wrench provided by the supplier.
6. Store oxygen and fuel gas cylinders at least 20 feet apart or separated by a 5 foot high noncombustible barrier.
7. If the cylinder is too heavy to handle use a hand truck to move it, or ask a co-worker for help.

Don'ts

1. Don't permit sparks, flames, or molten metal to contact the cylinder.
2. Never use grease or oil on valves.
3. Don't lift cylinders without safety caps in place.
4. Never use oxygen to blow or dust off your work clothes.
5. Don't roll cylinders horizontally on the ground.
6. Never drop cylinders on the ground or other work surfaces.
7. Don't store oxygen cylinders with other fuel gas cylinders.
8. Never use a leaking gas cylinder. Take it out of service immediately.

Never mix or match acetylene gauges with oxygen gauges.

The above evaluations and/or recommendations are for general guidance only and should not be relied upon for legal compliance purposes. They are based solely on the information provided to us and relate only to those conditions specifically discussed. We do not make any warranty, expressed or implied, that our workplace is safe or healthful or that it complies with all laws, regulations or standards.
