HAPPY VALLEY ROAD EMBANKMENT REPAIR

Addenda: 5

3/30/21 2:00 PM 21-00597 Alhambra Valley

\$741,000

Public Works

Plan Issuer: Contra Costa County - Public Works Department

925-313-2000

000-000-0000

Prebid Conf: 3/15 @ 10 AM via Zoom

Contract #: 0672-6U6215

The work to be done generally consists of repair and restoration of a 250 foot stretch of northbound Happy Valley Road, approximately 0.2 mile southeast of the intersection of Happy Valley Road and Bear Creek Road. The work will reconstruct the northbound lane and restore two-way traffic to this portion of Happy Valley Road. The work includes installing an approximately 68 foot long soldier pile retaining wall with necessary safety railing and barrier on the east side of the roadway to support the reconstructed roadway and repairing settled roadway affected by the eroded embankment with structural backfill and asphalt surface. Drainage improvements will also be installed.

RFP WCW - NORTH RICHMOND SHORELINE LIVING LEVEE PLANNING AND PRELIMINARY DESIGN - WEST COUNTY WASTEWATER DISTRICT

Addenda: 1

3/31/21 12:00 PM 21-00622 Richmond

Public Works

Plan Issuer: West County Wastewater District 510-222-6700 510-222-3277
 Contract #: 2021-004

West County Wastewater (WCW) is requesting proposals to provide planning, various biological, hydrologic, and geotechnical assessments, community engagement, preliminary design and project management services.

The purpose of this project is to develop a nature-based shoreline resiliency plan that provides transitional shoreline habitat, increased flood protection and improved public access along the North Richmond Shoreline in the face of increased sea level rise.

RFP FOR ARF AVENUE AND TENNYSON ROAD TRASH CAPTURE PROJECTS - DESIGN, COORDINATION WITH CALTRANS, AND INSTALLATION MANAGEMENT FOR THE PUBLIC WORKS & UTILITIES DEPARTMENT

Addenda: 0

3/31/21 3:30 PM 21-00808 Hayward

Public Works

Plan Issuer: City of Hayward - Purchasing

510-583-4000

510-583-3600

Contract #: 2114-031521

The city desires to select a qualified consulting firm to manage the design and installation of two large trash capture devices within Hayward in coordination with Caltrans. These two projects are located on Arf Avenue and Tennyson Road and include drainage areas that mutually benefit and reduce trash from both city right of way (ROW) and Caltrans ROW. Caltrans has agreed to provide funding to assist the city with these two projects in a collaboration to complete mutual trash reduction goals.

The consultant will design the installation of the Arf Avenue and Tennyson Road large trash capture devices, in coordination with the device manufacturer selected by the city. This includes a comprehensive review of the city's and Caltrans' existing stormwater facilities, GIS maps and files and associated drainage and flow data available for each site. The consultant will also acquire necessary approval and encroachment permits for installation of the devices within Alameda County Flood Control ROW and Caltrans ROW and submit appropriate engineering documents to achieve those approvals. The consultant's proposed design and its corresponding cost estimate shall be within the project's budget and satisfies City's requirements.

4/1/21 2:00 PM 21-00700 Novato **Public Works**

Plan Issuer: Novato Sanitary Dist 415-892-1694

Prebid Conf: 3/18 @ 10 AM (Virtual meeting. Meeting participation instructions will be available at a later time as stated in the Notice Inviting Bids. Bidders unable to attend the virtual Pre Bid conference shall notify the District. A Site Visit IS required for all Bidders prior to bidding) Contract #: 73006-2019-01

The Work of this Contract comprises all the work necessary to apply a protective coating to the headworks concrete walls and ceiling/soffit surfaces as shown in the Drawings. It includes providing and connecting temporary piping from existing pumps to various points in the treatment process. The Work is located within an operational wastewater treatment plant which is required to remain in reliable and safe operation throughout the entire contract period. At a minimum, the raw wastewater shall be treated by one mechanical screen, one grit removal unit, and flow metering before being discharged to the primary clarifier.

The Work includes the following principal elements:

1. Isolating sections of the headworks using existing gates and temporary piping.
2. Applying protective coatings.
3. Concrete mortar resurfacing and reinforcing steel repairs.

4/1/21 2:00 PM 21-00625 Santa Cruz \$4,500,000 to \$5,000,000 **Public Works**
 Plan Issuer: City of Santa Cruz 831-420-5160 831-420-5161
 Contract #: c400805

The work to be done consists of widening the existing intersection to accommodate additional vehicle turn lanes, bicycle lanes, and shoulders.

Reconstruction of the median on the southern leg of Route 1, minor widening and restriping of NB Route 1 would be required to accommodate the additional lane.

NB Route 9 would be widened to the east to accommodate the additional left-turn movement from SB Route 1. SB Route 9 would be reconfigured to accommodate two through lanes and shoulder from the Route 1/ Route9 intersection to Fern Street. A raised median would be constructed from Route 1/Route 9 intersection to Fern Street. SB Route 9 would be reconfigured from Fern Street to Encinal Street to accommodate one left-turn lane, a left/through lane, a bike lane, a right turn lane, and shoulder.

NB River Street would be reconfigured to accommodate a left/through lane, one through lane, bike lane, two right-turn lanes, and sidewalk. The roadway would be widened to the east to accommodate the reconfiguration.

SB Route 9 would be widened to provide an additional through lane to SB River Street.

SB Route 9 would be reconfigured to accommodate two left turn lanes, one left/through lane, one through lane, bike lane, a right-turn lane, shoulder, and sidewalk.

Work includes HMA overlay and cross slope correction, traffic signal modification, drainage modifications, City of Santa Cruz water line modifications, City of Santa Cruz sanitary sewer manhole adjustments, retaining walls, sound wall reconstruction and planting.

RFP LANDSCAPE MAINTENANCE SERVICES - CENTRAL CONTRA COSTA SANITARY DISTRICT

Addenda: 9

4/1/21 4:00 PM 21-00535 Various Cities

Public Works

Plan Issuer: Central Contra Costa Sanitary District 925-229-7100 000-000-0000
 Prebid Conf: 3/11 @ 10 AM via Microsoft Teams Meeting Contract #: 20-21-06
 The District is seeking proposals for professional landscape maintenance services for the work generally described in this Request For Proposals. Within the District boundaries there are approximately 24 acres of landscaped and associated hardscape areas that require weekly, monthly and seasonal service, including the main District facilities, several remote auxiliary facilities and properties, and several easements that require annual weed abatement.

Headquartered at the intersection of Interstate 680 and Highway 4, the Martinez-based location includes the Treatment Plant site, the Headquarters Office Building (HOB), Plant Operations Building (POB), Environmental Laboratory, Household Hazardous Waste Collection Facility (HHWCF), and various other support buildings and facilities. Outlying facilities include the Collection System Operations (CSO) Office Building and Vehicle Maintenance Facility in the City of Walnut Creek, and several of their Pumping Stations sites and associated properties.

FAIRMONT HOSPITAL STORM DRAIN - SAN LEANDRO (SUB-BIDS ONLY)

Addenda: 1

4/2/21 2:00 PM 21-00670 San Leandro

Public Works

Plan Issuer: Consolidated CM, Inc. ritter@consolidatedcm.com 510-208-1720 000-000-0000
 Prebid Conf: 3/18 @ 9 AM at 2054 Fairmont Drive, San Leandro (Meet outside of building) Contract #: 20194-20231
 Job Order Contract:

The scope of work for this project is to provide all labor, material, and equipment to repair approximately 351 LF of 24" storm drain at the Fairmont Hospital site, see attached drawing. This repair will consist of a confirming video of the pipe, cleaning of any debris, and installation of 152 LF of CIPP lining from SDMH-1 to SDMH-1a. The lower half of the project has badly deteriorated pipe and will consist of pipe bursting 199 LF of 18" HDPE pipe pulled in place from an entry pit to SDMH-1 and from the entry pit to SDMH-2, this will require a setup at SDMH-1 for pulling the first leg of the pipe, then re-setup at SDMH 2 for pulling the second leg of the pipe. The interstitial space between the outside of the new 18" HDPE pipe and the inside of the old 24" pipe will be grouted to fill-in any voids. All excavations will be filled and compacted including the existing exploratory pit that was opened up. Asphalt patching will be done at the existing exploratory pit once backfilled. Site clean up and haul off of any debris will be done at the completion of the project.

SAN VICENTE BRIDGE

Addenda: 3

4/2/21 2:00 PM 21-00819 Davenport \$500,000 to \$1,000,000 Public Works

Contract #: 6982AF21B000005 / CA BLM 2020(1)

This project includes the replacement of a single lane, 29-foot long single span steel girder bridge (Bridge #1) with a 49-foot long single span prefabricated steel girder bridge with steel decking and aggregate fill supported on spread footing foundations. The project also includes removal of a second out of service bridge (Bridge #2) which is approximately one-mile north of Bridge #1 on San Vicente Road. Bridge #2 consists of a 40-foot long single span structure with a timber deck on a steel railcar superstructure with two steel girders. The condition of the Bridge #2 has deteriorated to such an extent that the structure has been closed. Both bridges span San Vicente Creek. Access to the project sites is along San Vicente Road, a single lane, gravel road.

All of the work is occurring in natural resource sensitive areas. Timely completion of construction will be crucial to minimize disruptions to BLM employees and partner agencies throughout construction and to achieve customer satisfaction. San Vicente Road is closed to public use (behind a locked gate) and will remain closed during construction.

PRE-QUALIFICATIONS FOR DISTRIBUTED ANTENNA SYSTEM IMPLEMENTATION - CHABOT COLLEGE Addenda: 0

4/6/21 2:00 PM 21-00862 Hayward

School

Plan Issuer: Chabot-Las Positas Community College District - Purchasing & Warehouse Services

925-485-5245

925-485-5271

Contract #: B20/21-13

Chabot College in Hayward, has limited cellular coverage and signal strength within its buildings. During the Measure B construction and modernization of several buildings on campus, high efficiency, IR reflecting, low-emission glass was installed. Cellular signal inside of these and many other buildings is virtually non-existent.

The poor cellular service inside of buildings has presented a safety and security issue for students, faculty and staff. While the building exterior coverage is the responsibility of the carrier macronetwork, CLPCCD will be installing a commercial Distributed Antennae System (DAS) for the transmission of the cellular signal bands from 600-2700 MHz into its buildings. This DAS system will support multiple cellular service providers including AT&T, Verizon and T-Mobile. The DAS will be designed in a multi-sector topology for effective 911 identification.

PLEASE NOTE: All Sealed Bid Proposals shall be submitted on forms furnished by the District. Bid Proposals must conform with, and be responsive to, the Bid and Contract Documents, copies of which will only be distributed to the pre-approved vendors. Only Bid Proposals submitted to the District at or prior to Friday May 14, 2021 at 2:00 p.m. shall be considered for the public opening and reading of Bid Proposals.

RFP - ROADWAY DESIGN SERVICES TO THE SAN LORENZO VALLEY WATER DISTRICT

Addenda: 0

4/6/21 3:00 PM 21-00836 Boulder Creek 831-430-4635 Public Works

Plan Issuer: San Lorenzo Valley Water District jwolff@slvwd.com

The 2021 Lyon Complex Access Road Project (Project) includes a geotechnical investigation of the hillside area between Big Steel tank and the Lyon tank complex, situated on Madrone Drive in Boulder Creek, California; design of a new road intended to provide access from Madrone Drive to the Lyon tank complex; and construction of said road.

The District's intent is to award a contract to an engineering firm qualified to perform roadway design and layout, with necessary geotechnical investigation; then contract separately for roadway construction.

UTILITY UNDERGROUND DISTRICT 38 SERVICE LATERALS PROJECT

Addenda: 3

4/7/21 3:00 PM 21-00680 Alameda

510-814-6429

000-000-0000

Public Works

Plan Issuer: Alameda Municipal Power

Prebid Conf: 3/17 @ 10 AM. RSVP in advance for the project in the Bid Portal and you will receive an email containing information about joining the meeting prior to the pre-bid conference to acquaint all prospective bidders with the Contract Documents and the Project.

The Project is located in the City of Alameda. along Otis Drive between Broadway and High Street and along Broadway between Otis Drive and Encinal Avenue, including. Evelyn Court, Waterton Street, Fountain Streets, and parts of Pearl Street, Mound Street, and Court Street, and is described as follows:

This project will involve installing electric and telecommunication service lateral trench and conduit from back-of-the sidewalk to a designated utility location on private property in preparation of overhead to underground conversion. The Contractor is to provide all material, labor, and equipment required to provide trenching, saw cutting, sidewalk and street removal and replacement, boring, and installation of underground substructures for Alameda Municipal Power (AMP), AT&T, and Comcast. AMP is the lead utility responsible for managing this joint service trench project. There are 193 site locations to install the joint service lateral trench and conduit for all three utilities. The Technical Specifications contain the full description of the Work.

RFQ: MB GENENTECH HALL UNINTERRUPTED POWER SUPPLY (UPS) UPGRADE (ENGINEERING FIRMS) - UCSF

Addenda: 0

4/8/21 12:00 PM 21-00854 San Francisco

Hospital

Plan Issuer: UCSF - Tra Thanh tra.thanh@ucsf.edu

415-476-9437

UCSF Real Estate Campus Design & Construction is requesting written responses to this Qualification Packet from qualified firms to provide professional services for the MISSION BAY GENENTECH HALL UNINTERRUPTED POWER SUPPLY (UPS) UPGRADE (PRJ-000296) project. The successful firm will work with UCSF to provide provide technical specialists including, but not limited to, the professional disciplines of electrical engineering, structural engineering, and architectural services.

The main scope of this Project is to upgrade the Uninterrupted Power Supply (UPS) that services IDF Riser A, Riser B, Net Work Distribution Center (NDC) and Data Center at Mission Bay Genentech Hall. It is UCSF's best interest to upgrade the system with two UPSs. The first new UPS is to serve IDF Riser A and Data Center. Which is ultimately replace an existing UPS that serves Data Center only. The second new UPS is to serve IDF Riser B and NDC. An interconnection between the two new IDF riser UPSs will allow for redundant backup through a manual transfer switch.

NEW TRI-CITY VOLUNTEERS FACILITY REHABILITATION PROJECT (REBID)

Addenda: 1

4/13/21 11:00 AM 21-00930 Fremont

Public Works

Plan Issuer: Tri-City Volunteers Inc.

510-793-4583

000-000-0000

Prebid Conf: MAND Bidders are required to complete a Walkthrough of the job site. Bidders need to contact Michael Mayer to schedule the Walkthrough. Walkthroughs can be scheduled after bid release until noon, April 5, 2021. Walkthroughs are available Monday through Friday, 8am to 3pm. If bidders have previously visited the job site a 2nd walkthrough is not required

Remove the existing carpet in the thrift store sales floor (approximately 2,800 sq. ft.) then inspect and prepare the concrete flooring area for treatment. The quote must include moisture testing to insure proper adhesion of the floor coating material. Test results must be shared with TCV Project Manager prior to proceeding with coating application. Quote must include concrete floor sand blasting, patching/repairing of any holes, filling of expansion joints and coating with material that is able to withstand pallet jacks and fork lifts, heavy foot traffic and standing water. The specification of the material used for this project needs to be similar to the products referenced below. Any significant deviations need to be explained in the contractor's quote.

NEW **PREQUAL: AMBULATORY CARE CENTER (ACC) 3RD & 4TH FLOOR HEMATOLOGY (HEM) BONE MARROW TRANSPLANT (BMT) EXPANSION - UCSF** **Addenda: 0**

4/13/21 2:00 PM 21-00901 San Francisco \$9,400,000 **Hospital**
 Plan Issuer: UCSF - Alison Kang alison.kang@ucsf.edu 415-353-7393 000-000-0000
 Contract #: 19-204

The Ambulatory Care Center (ACC) 3rd and 4th Floor Hematology and Bone Marrow Transplant expansion project is a three-phase project that will expand the capacity of the existing clinical services provided on the 4th floor into the Eastern half of the 3rd floor. The Project is a remodel of approximately 14,800 square feet. Hazardous material abatement is required on the 3rd floor. Work includes new interior partitions, ceilings, finishes, casework, new plumbing, mechanical, electrical, lighting, and low voltage systems to tie into the existing building.

The 3rd floor clinic is a complete remodel and will include reception and waiting, exam rooms, consult rooms, additional patient toilets, provider touchdown stations, administrative offices and conference rooms, and a staff/break room. Additional 3rd floor work includes interior refresh of existing elevator lobby and corridor, remodel of existing staff and public toilets located in the core and upgraded accessible drinking fountain.

The 4th floor treatment area remodel will expand the existing cancer infusion center: an additional infusion bay, additional pheresis rooms, consult/infusion room, blood draw, central line draw room, (2) additional nurse stations, clean utility room, and soiled utility room.

RENOVATION OF 2815 SAN DIEGO ROAD - ALAMEDA POINT **Addenda: 0**

4/13/21 2:00 PM 21-00865 Alameda \$175,000 to \$200,000 **Public Works**
 Plan Issuer: City of Alameda - Public Works 510-747-7900 510-521-8762
 Prebid Conf: MAND 3/24 @ 10 AM at Project Site Contract #: CDSIP2815SDR

The Project involves the renovation of an existing single-story, wood frame, four-bedroom, two-bath, approximately 1,980 square foot single family residence. No changes to the existing building footprint or change in use. The general scope of work consists of, but is not limited to, minor demolition, rough carpentry, finish carpentry, cabinet restoration, countertop installation, thermal and moisture protection, interior and exterior door installation and hardware, stucco and wall board repair, ceramic tilework and flooring installation, interior and exterior painting, installation of plumbing fixtures and kitchen appliances, general electrical and mechanical involving replacement of light fixtures, outlets and switches, and the replacement of the existing heating and water heater units. Additional concrete driveway and sidewalk repair are scheduled as alternates.

CASTENADA NO. 1 AND NO. 2 RESERVOIRS REHABILITATION, GLEN RESERVOIR DEMOLITION, AND MULHOLLAND RESERVOIRS ROOF MAINTENANCE - EBMUD Addenda: 6

4/14/21 1:30 PM 21-00713 San Ramon, Lafayette & Orinda \$15,000,000 to \$18,000,000 **Public Works**

Plan Issuer: EBMUD-East Bay Municipal Utilities District 510-287-1040

Prebid Conf: 3/16 @ 9 AM & 3/18 @ 9 AM (See Notice to Contractors for meeting site location) Contract #: 2169

Work includes the rehabilitation of Castenada No. 1 and No. 2 steel reservoirs, the demolition of the Glen redwood reservoir, and roof improvements for Mulholland No. 1 and No.2 steel reservoirs. The Work includes demolition and removal of a redwood tank, steel reservoir roofs, and valve vaults; raising the height of steel tank walls; construction of aluminum dome roofs; repair of existing aluminum dome roofs; construction of valve vaults; abrasive blasting, priming, and coating of tank interiors and exteriors; and constructing civil, structural, mechanical, electrical, and pipeline improvements at the facilities. The reservoirs are located in San Ramon, Lafayette, and Orinda, respectively, in Contra Costa County, California.

PLEASE NOTE: The District will conduct two pre-bid jobsite inspection tours to familiarize prospective bidders with the project site and conditions. The inspections will be conducted on Tuesday, March 16, 2021 at 9 AM, and Thursday, March 18, 2021 at 9 AM. Attendees shall assemble at the Castenada Reservoirs site located at 5050 Crow Canyon Road, San Ramon. During the inspection tour, Attendees will also travel to Glen Reservoir located at the end of Monticello Road, Lafayette, and the Mulholland Reservoirs site located on Donald Dr, Orinda. This is the only time that the facilities will be open for inspection. The interior of the existing reservoirs will not be open for inspection. Each inspection will last approximately 1 hour. No photography by the Attendees will be allowed.

MERA NEXT GENERATION RADIO SYSTEM DOLLAR HILL, TIBURON & STEWARD POINT

Addenda: 6

4/14/21 2:00 PM 21-00505 San Rafael, Tiburon, Salinas \$440,761

Public Works

Plan Issuer: Marin Emergency Radio Authority james.mckenzie@aecom.com 415-940-8037 000-000-0000

Prebid Conf: 2/24 @ 11 AM (Virtual meeting. Contact James.McKenzie@AECOM.com, or call 415-940-8037 for login instructions) Contract #: 2021-001A

DOLLAR HILL:

Address: at the end of Robert Dollar Drive, San Rafael, CA 94901

Work comprises construction of additional radio equipment infrastructure for new microwave dishes, GPS and radio antennas on an existing 60' tower with structural modifications and improvements in existing equipment shelter.

TIBURON:

99-1/2 Mt. Tiburon Road, Belvedere Tiburon, CA 94920

Work comprises construction of additional radio equipment infrastructure for new microwave dishes, GPS and radio antennas on an existing 60' monopole tower and an existing 22' monopole tower with structural modifications and improvements in existing equipment shelter.

STEWART POINT:

315 Paradise Valley Road, Bolinas, CA 94924

Work comprises construction of additional radio equipment infrastructure for new microwave dishes, GPS and radio antennas on an existing 35' monopole radio tower with structural modifications and improvements in the existing equipment shelter. Replacement of generator.

PLEASE NOTE: MANDATORY Site Visit of the Dollar Hill, Tiburon & Stewart Point sites will be held on March 5, 2021, at 8:00 AM. Meeting point is Tiburon Radio Site, 99-1/2 Mt. Tiburon Rd., Belvedere Tiburon, CA 94920. Contact James McKenzie, Construction Project Manager, at: James.McKenzie@AECOM.com, or (415) 940-8037 with any questions.

NEW RFQ/P ON-CALL POTHOLE AND MISCELLANEOUS PAVEMENT REPAIRS - CITY OF SAN RAMON

Addenda: 0

4/14/21 2:00 PM 21-00928 San Ramon

Public Works

Plan Issuer: City of San Ramon - Engineering 925-973-2670 000-000-0000

The Project involves construction and repair work for public infrastructure, which may be located at various streets, trails, parks and other facilities located throughout the City. The Work is to be performed on an on-call and as-needed basis, based on Work Orders issued by the City, as further specified in the Contract Documents.

Project scope includes, but is not limited to, any or all of the following:

- Removing and replacing existing pavement failed areas;
- Placement of pavement reinforcement fabric;
- Adjustment of storm drain manholes to grade;
- Hot mix asphalt leveling course to fill depressed areas;
- Slurry Seal Type II applied to streets, trails, and/or parking lots;
- Miscellaneous pavement work as directed;
- Notification of property owners;
- Installation of traffic control systems necessary to complete work on collector, arterial, and residential streets; and
- Other incidental and necessary work for performance of the above in conformance with the City of San Ramon Standard Details, the 2018 Caltrans Standard Specifications, and specified provisions of the 2018 Caltrans Standard Plans, all of which are incorporated by reference herein.

JOB ORDER CONTRACT 21-048 FOR FACILITIES - MINOR CAPITAL OUTLAY PROJECTS

Addenda: 3

4/14/21 3:00 PM 21-00772 San Luis Obispo

School

Plan Issuer: Cal Poly Facilities Planning & Capital Projects 805-756-1299 805-756-7566

Prebid Conf: 3/17 @ 10am- ZOOM Contract #: 21-048

The Job Order Contract (JOC) is a competitively bid, firm fixed-priced, indefinite quantity contract. The scope of work includes a collection of detailed repair and construction tasks and specifications that have established unit prices. Contractors are bidding on a mark-up, not on a project cost.

The University intends to award two separate JOC agreements under two separate solicitations at the same time, to the lowest responsive and responsible bidder for each solicitation for the accomplishment of repair, alteration, modernization, rehabilitation, demolition and minor construction of infrastructure, buildings, structures, or other public works. Bidders may bid separately on any or all of the contracts; however, only one contract may be awarded to any bidder. The apparent lowest responsive and responsible bidder shall be determined sequentially for each contract in the following order: JOC 21-048; JOC 21-049. The apparent lowest responsive and responsible bidder on each JOC contract will be excluded from consideration for successive contracts. JOC 21-048 and JOC 21-049 will have a minimum value of \$25,000 and a maximum value of \$500,000; The University reserves the right to increase the maximum value of JOC 21-048 and JOC 21-049 incrementally up to \$3,000,000 dependent upon contractor's performance, available prequalification rating minus receivables, and bonding capacity. The term of each JOC contract is 365 calendar days.

 Prebid Conf: MAND Virtual Pre-Bid Job Walk: 3/31 @ 10 AM Contract #: 12650A

1. As a subcontractor to Plant Construction Company (CM@Risk General Contractor), this trade package is responsible for the following related specification sections:
 - a. 06 10 53 - Miscellaneous Rough Carpentry
 - b. 06 20 23 - Interior Finish Carpentry
 - c. 06 40 00 - Architectural Woodwork
 - d. 06 64 00 - Plastic Paneling
2. Provide fire treated plywood backboards for MPOE, Tele/Data closets, electrical rooms, elevator rooms and all locations where a low or line voltage electrical panel will be installed
3. Provide wood blocking and backing where required for all wall mounted fixtures, monitors, equipment, lockers, millwork, finish carpentry and MEPS items.
4. Provide wood nailers, door bucks, and blocking for installation of wood door frames.
5. Provide all wood framed curbs, nailers, blocking and cant strips where required at access panels, dugouts, locker rooms, bathrooms, ventilator curbs, louvers, new roofing areas, and other exterior details.
6. Provide ramps, barricades and any other requirements to maintain pedestrian access path to Strawberry pool west entry gate.
7. Provide and install all appliances.
8. Include installation of all OFCI items.
9. Include installation of all FRP wall protection including trim.
10. Provide temporary bracing of site elements such as light poles, fencing, etc., until permanent installation is established, and include removal and disposal of this bracing.
11. Include temporary protection of stairs, walls, floors, and finishes as they are installed to prevent damage until they are completed, and include regular maintenance of this protection and removal and disposal upon completion.
12. Provide temporary weather protection throughout the construction period.
13. Provide tree protection at trees to remain.
14. Include installing 4x4 wood poles for temp power, lighting and water during the entire course of construction, and include removal and disposal of these items. Poles should surround the site. See logistics plan for reference.
15. Include installation, relocating, maintenance, and removal of temporary structures per the site logistics plan, and for all pedestrian tunnels and walkways required during construction.
16. Include erecting story poles and setting exterior grading benchmarks with the surveying team.
17. Include layout and interior benchmarks to facilitate the MEPS rough in, and reestablishing benchmarks as needed during the course of construction as the work progresses.
18. Include evaluation reports for:
 - a. Fire retardant treated wood
 - b. Power driven fasteners
 - c. Expansion anchors
19. Include daily cleanup of all materials and debris during the course of construction and disinfecting all tools at the end of each day.
20. Include temporary shoring for metal deck pours.

PREQUAL: STRUCTURAL STEEL, DRYWALL & CEILINGS, EXTERIOR GLAZING, EXTERIOR CLADDING (GFRC), CIP CONCRETE, REBAR, LAB CASEWORK, DOORS FRAMES & HARDWARE, SITE UTILITIES SUBCONTRACTOR DESIGN BUILD QUALIFICATIONS - SFUSU Addenda: 0

4/20/21 1:00 PM 21-00697 San Francisco Public Works

Plan Issuer: DPR Construction joannam@dpr.com 650-868-8691 000-000-0000
 Prebid Conf: MAND 3/18 @ 8 AM (Contact Joanna Martinez at: joanna@dpr.com, or call 650-868-8691 for meeting participation instructions) Contract #: E001017-2

SCOPE OF SERVICES: Notification of Qualification Process for Qualified Design Build Subcontractors Requested by DPR Construction. DPR Construction invites trade contractors to qualify by submitting qualifications for this Project.

GENERAL DESCRIPTION OF WORK:

The new Science Replacement Building is envisioned as a modern, collaborative facility that supports the instructional and teaching-related research needs of the College of Science & Engineering (CoSE). It will provide lower division and upper division teaching labs, undergraduate and graduate research labs, large, flat-floor flexible interdisciplinary lecture classroom, makerspace for prototyping and student projects, tutoring and student advising space, and social space that allows for informal collaboration and learning. It will also include faculty shared workstations, conference rooms, laboratory support space, and a new office suite for the CoSE Dean.

The Project covers demolishing portions of an existing structure and adding an additional 126,000 GSF on the site. 54,000 GSF of the 1950's/1960's Building will be renovated. The Project is located on the eastern edge of the SF State campus, between Hensill Hall to the north and the HSS Building to the south. Three wings on the east side of the existing building were built in the 1960s, and three wings on the west side were built during the 1950s. The 1960s portion of the existing building will be demolished to make room for a new building that must be less than 75 feet above ground. Approximately 30% of the western wings were renovated in 2015. The remaining areas in the western wings will be renovated as part of this Project. The Project is expected to achieve a minimum of LEED Gold. The address is 1600 Holloway Ave, San Francisco, facing 19th Avenue to the east and the central Quad to the west. The Project site has high visibility along the campus's two most public faces. The site is located at the very heart of the SF State campus. It is immediately adjacent to Hensill and Thornton Halls, both of which house other CoSE programs.

The Subcontractor designated categories include:

- Structural Steel (DA)
- Drywall (Interior and Exterior) & Ceilings (DB)
- Exterior Glazing (DB)
- Exterior Cladding - GFRC & Metal Panel (DA)
- Cast-In-Place Concrete and Reinforcing Steel (DA)
- Lab Casework (DA)
- Doors Frames and Hardware (DA)
- Site Utilities

Contact DPR via email at: joanna@dpr.com to receive Prequalification Instructions. Other Details: This Project is a public works project and is subject to prevailing wage rate laws. All Respondents/Proposers and all tiers of subcontractors who will work on this Project shall register to bid and work on public works projects with the Dept. of Industrial Relations (DIR), and maintain current this registration per Labor Code section 1725.5. For more information, go to <http://www.dir.ca.gov/Public-Works/PublicWorks.html>

 Contract #: 2202

The Reservoir Cleaning Project involves sediment removal by vacuum or pump and disposal of solid and liquid material removed from each reservoir. Several months may elapse for completion of the project depending on sediment, disposal, weather and water demand. The District will have personnel on site during the cleaning but all cleaning operations will be performed by the Contractor and the Contractor will conduit site management.

PLEASE NOTE: There will be no pre-proposal inspections scheduled. If you need to inspect the sites, special arrangement can be made by calling Deion Gonsalves at 925-688-8120.

CLEVELAND ELEMENTARY SCHOOL NEW CLASSROOM BUILDING AND INTERIM HOUSING

Addenda: 2

4/21/21 11:00 AM 21-00813 San Francisco

\$6,000,000

Public Works

Plan Issuer: SFUSD - Ferdinand Vergeire

415-241-4312

Prebid Conf: MAND 3/25 @ 10 AM OR 3/31 @ 10 AM (meet at 455 Athens St, SF)

Contract #: 12215

The Project is generally described as:

a. Construction of a new 5,581 sq. ft. permanent 1-storey classroom building containing a school office, four classrooms, two all-gender neutral multi-stall toilet rooms, a single-occupancy staff toilet, a janitorial closet and an electrical utility room. The Project also includes, but not necessarily limited to, building and site demolition with hazardous abatement, earthwork, excavation and soil mitigation, extension of existing site utilities, storm water control with bio retention system, hard and soft landscaping including irrigation, fire alarm and security systems, replacement of playstructure safety rubber tiles, ADA site upgrades, fencing and gates, play yard resurfacing and game line striping.

b. Installation of three relocatable classroom buildings with attached toilets which includes prefabricated accessible metal ramps with transition landings, asphalt overlays and paving patch work, plumbing, electrical power, fire alarm, and data systems, trenching for underground utilities, fencing and gates.

Plan Issuer: City of Santa Cruz 831-420-5327 831-420-5201

Prebid Conf: MAND 4/6 @ 10am- site Contract #: CWO 2021-003

The City of Santa Cruz is pleased to issue the Graham Hill Water Treatment Plant (GHWTP) Entrance Improvements Project for bidding. Bid documents will be provided to interested contractors by separate link after returning a completed non-disclosure agreement to the contact listed on the advertisement for bids.

The City of Santa Cruz Water Department is a public agency with the responsibility to provide safe drinking water to its customers. The GHWTP is the City's only surface water treatment facility and a critical component of the City's permitted drinking water system. The work involves expanding the existing roadway entrance to the GHWTP into a two-lane road, demolish the existing gate and replace it with two separate gates, relocate existing access control system and cameras, relocate existing personnel gate and mailbox, install traffic signs, install engineered gravel strips on the north and south side of the entrance roadway.

NEW RFP FOR ODOR AND CORROSION CONTROL SERVICES

Addenda: 0

4/28/21 2:00 PM 21-00892 Santa Cruz

Public Works

Plan Issuer: County of Santa Cruz

831-454-2160

831-454-2385

Prebid Conf: MAND 4/6 @ 9am- 2750 Lode Street, Santa Cruz

The Santa Cruz County Sanitation District (District) invites sealed proposals for Odor and Corrosion Control Services from fully licensed, insured, bonded, certified CONTRACTORS to furnish all labor, tools, equipment, and incidentals required to provide services for the Santa Cruz County Sanitation District.

The District maintains 220 miles of gravity sewer mains, 14 miles of force mains, and 4,687 sewer manholes and 35 pump stations. The District encompasses the communities of Live Oak, portions of Aptos and Soquel and the City of Capitola. Our primary purpose is to maintain the sewer system transporting the wastewater to the City of Santa Cruz Wastewater Treatment Plant. The D.A. Porath Facility is the District's main facility and the average daily dry weather flows are approximately 3 million gallons per day before it is pumped to the City's treatment.

The District is soliciting bid proposals from qualified and experienced contractors to provide odor and corrosion control chemical, carbon media and services as detailed in this Specification.

The scope of this project shall include, but not be limited to:

- Provision of and delivery of chemical
- Provision of carbon and carbon change-out services
- Data collection
- Data Analysis
- Provision and installation of equipment and instrumentation
- Routine service and maintenance
- Remote Feed Adjustment Capability
- Remote H2S Monitoring
- Remote Tank Monitoring and Inventory Control Services
- Reporting

The term of this contract will be 2 (two) years with the option to extend for an additional 2 (two) one-year periods.

Plan Issuer: City & Co of San Francisco (SFMTA) allan.andaya@sfmta.com 415-701-4666 000-000-0000

Prebid Conf: 2/4 @ 10 AM (via Zoom. See Invitation for Bid for meeting participation details) Contract #: 1308R

The work under this Contract is to construct capital improvements along the L Taraval corridor between Sunset Boulevard and West Portal. The Work, as detailed in the Plans and Specifications, consists generally of the following:

01. Perform selective demolition of existing facilities.
02. Replace existing tangent paved embedded tie and ballast tracks along the L Taraval Line from Sunset Boulevard and Taraval Street to Forest Side Avenue and Ulloa Street with new direct fixation track and fastening systems, using 115# RE rails.
03. Replace existing track pavement with track concrete pavement within the track right-of-way.
04. Reconstruct Overhead Contact System (OCS), including poles and pole foundations, special work, trolley wires, tangent and feeder spans, insulators and various OCS components.
05. Renovate and reconstruct roadway pavement, parking strips and gutters, located between the sidewalk and the reconstructed trackway as well as at intersections.
06. Overlay the entire roadway with a 2-inch thick layer of asphalt concrete wearing surface from Sunset Boulevard to Forest Side Avenue along project alignment, except at trackway and the parking strips and gutters.
07. Construct temporary boarding platforms, as necessary.
08. Construct new boarding islands and high level accessible platforms and reconstruct or modify existing boarding islands and platforms.
09. Coordinate installation of bus shelters with electrical power feed for Next Bus signage on the boarding islands.
10. Construct and install architectural elements and components such as railings, trash receptacles, and bike racks.
11. Construct sidewalk bulb-outs and curb ramps.
12. Furnish and install and establish landscape planting.
13. Tree removal & stump grinding.
14. Install custom thermoplastic crosswalks.
15. Furnish and install new roadway lighting poles, fixtures and bracket arms, and relocate existing fixtures to new poles or combination trolley/streetlight poles.
16. Furnish and install new streetlight conduit, pull boxes, and underground and overhead service connections for streetlights.
17. Provide new traction power feeder cable grounding of new trolley poles.
18. Provide new traction power riser cables and multi-tap connectors for new trolley poles.
19. Provide new traction power feeder cables for existing sectionalizing switch and for feeder circuit WP-13.
20. Replace feeders in substation with new FBK type H breakers for feeder circuits T-1, T-2, and WP-13.
21. Add electrical current telemetry devices to feeder circuits T-1, T-2, and WP-13.
22. Upgrade Remote Terminal Unit (RTU) and annunciator units at Taraval and West Portal substations.
23. Upgrade Traction Power SCADA system at Taraval and West Portal substations and Power Control Center (PCC).
24. Provide new VTAG train signaling system at select locations.
25. Replace five (5) all way stop intersections with traffic signals and install intersection controller (IC) at each intersection.
26. Replace existing traffic signals.
27. Provide rapid rectangular flashing beacons.
28. Construct traffic signal conduit and pull boxes for future signalization and future interconnect fiber optic.
29. The Sewer Work to be performed includes but is not limited to constructing 12 to 30-inch diameter vitrified clay pipes and reinforced concrete pipes, cured-in-place lining 2'x3' and 2'-6"x3'-9" flat top concrete sewers, constructing new manholes, replacing side sewers, cured-in-place lining of existing side sewers, reconstructing culverts, mortaring manholes, plugging & filling existing sewer systems, performing post video inspections, and all other related work.
30. The work to be performed under this contract includes installing : approximately 20,000 linear feet of 4-, 6- and 8-inch ductile iron pipe; approximately 1,000 linear feet of 4-, 6- and 8- inch restrained joint ductile iron pipe; approximately 1,300 linear feet of 12-inch restrained joint ductile iron pipe; approximately 200 linear feet of 16-inch restrained joint ductile iron pipe; ductile iron joint fittings and valve assemblies; corrosion mitigation system; 1-inch to 8-inch service piping; pipe abandonment; open trench installation of nine (9) steel casings with ductile iron carrier pipe (restrained joint type) at Muni track crossings; and open trench installation of one (1) steel casing near 28th Avenue.
31. Replace all low pressure fire hydrants and add new fire low pressure hydrants and associated fittings and valves.
32. Provide all excavation and shoring at all connections, disconnections, and at service pits, where the work will be performed by SFWD.
33. Provide all excavation and excavation support work for PG&E hot tapping of deactivated gas mains.
34. Provide traffic control and support for all work.

(This Project is a REBID. Previously scheduled bid date was 9/12/19).

PREQUALIFICATION WIDENING OF US 101 SB TO SR 87 SB CONNECTOR & US 101 SB ON-RAMP FROM STORY ROAD - SCVTA

Addenda: 3

SCOL70 **5/5/21 5:00 PM** 21-00241 Santa Clara County \$2,900,000 to \$3,500,000 **Public Works**
 Plan Issuer: SCVTA -Santa Clara Valley Transportation Authority 408-321-7189

Contract #: C19240

At Location 1, the Project will widen the existing connector ramp to provide two standard 12-foot mixed flow lanes with standard inside and outside shoulders. The improvements involve restriping, pavement widening, reconstructing a lined trapezoidal ditch, and installing a new Traffic Monitoring System (TMS).

At Location 2, the Project will widen the existing diagonal on-ramp to add a standard 12-foot High Occupancy Vehicle (HOV) lane. The Project will also re stripe the adjacent Collector-Distributor (C-D) to Southbound US-101 to provide a standard 12-foot HOV lane. The improvements involve restriping, pavement widening, extending a reinforced concrete box culvert, and installing new ramp metering systems.
